

BREAKING NEWS: *United Tax Services Introduces New Non-Escrow Reporting Product for Mortgage Customers*

PLANO, TEXAS – United Tax Services is excited to announce the launch of its new non-escrow reporting product, designed to provide mortgage customers with enhanced accuracy, automation, and financial protection.

With extensive experience in the real estate tax sector—spanning residential and commercial property research, procurement, and reporting—United Tax Services now offers a cutting-edge technology platform that ensures timely and highly accurate non-escrow data reporting.

“Most providers today offer limited flexibility, modernization, and customization in reporting, often relying on a one-size-fits-all approach with minimal exceptions. This is where United Tax Services will make a difference,” says Mike Whiting, President of United Tax Services, who played a key role in developing the new product. “This tool, along with our other available services, will provide non-escrow customers with greater automation in their processes and financial protection for both them and the homeowner.”

United Tax Services’ customizable non-escrow reporting tool offers full visibility into the status of a customer's non-escrow portfolio and associated risks. The company takes a personalized approach, working closely with each client to understand their unique reporting needs and deliver tailored solutions.

“We are excited to offer a tax solution product for this segment of the real estate transaction,” says Chris Flynn, CEO of United Tax Services. “With our established presence in the title sector, this was the perfect addition to our product lineup.”

About United Tax Services

United Tax Services is an industry leader in information services and tax data solutions.

United Tax Service is the result of decades of industry experience mixed with a love of title work. Founded in 2005, United Tax was created with one goal in mind - to provide the fastest and most accurate property tax data in the nation. Our company mission statement “Accomplished Design. Exceptional Service.” encapsulates the way we approach this goal and maintain our business relationships.

Our business flourishes based upon three things: the relationships we forge with our clients, our innovative approach to technology, and accountability with our vendor partners. These values are championed by CEO Chris Flynn, who leads the company, lending his deep knowledge and understanding of the unique needs of the real estate industry.

Our promise to current and future clients alike is to offer our best, every day. Success is built upon sustainable, reliable growth and the ability to consistently provide a dependable, streamlined solution in the dynamic and ever-changing climate of real estate.
